# Improved Workability of Pokayoke Compatible Tools

## Pokayoke Slim Transmitter

**NEW**

### TW-810T

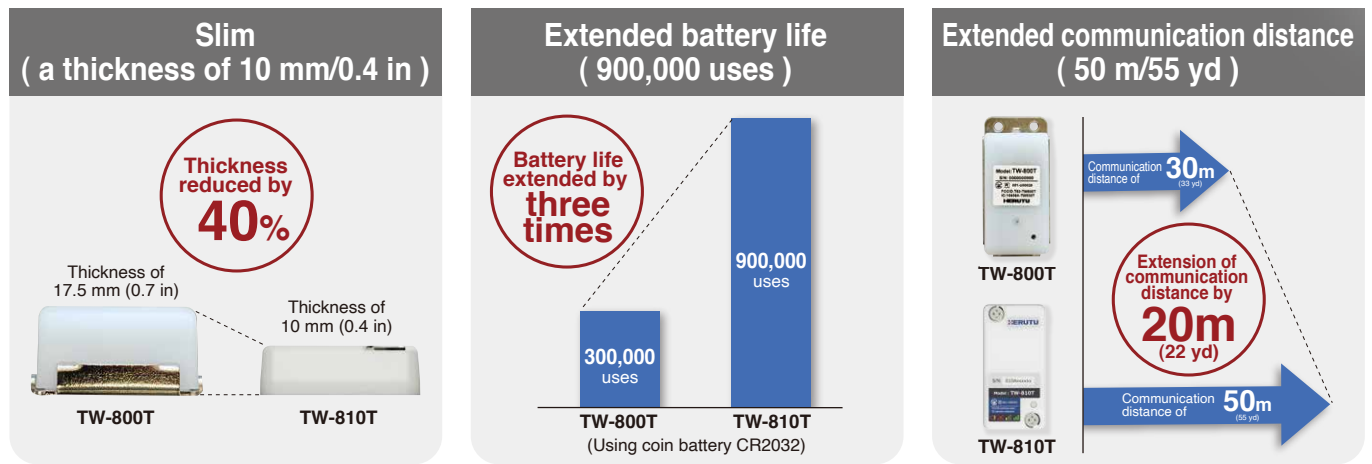

Slimmer and featuring a longer battery life and an extended communication distance compared with the existing Pokayoke transmitter TW-800T, this transmitter greatly enhances the workability of Pokayoke compatible tools.

**Slim ( a thickness of 10 mm/0.4 in )**

**Extended battery life ( 900,000 uses )**

**Extended communication distance ( 50 m/55 yd )**

#### Improved maintainability

- Features a durable case material
- Uses a mechanism to prevent switch damage
- Has a communication status notification feature (LED to display communication status of environment in use)
- Has a battery level notification feature (LED to display when to replace the battery in the transmitter)

#### Compatible size for attachment of TW-800T

The TW-810T can be used as is by attaching it to tools such as torque wrenches, pliers and pliers wrenches to which the TW-800T is attached.

Frequency Band	2,403MHz-2,478MHz (A free channel is selected automatically by a frequency hopping function.)
Input	1 Non-voltage Contact Signal
Display	Communication Status Notification (Green / Yellow / Red) / Battery Level Notification (Orange)
Power Source	1 Coin Battery (CR2032)
External Dimensions(W x H x D)	32 x 66 x 10 mm (1.3 x 2.6 x 0.4") (excluding protrusions)
Weight	Approx. 21g (0.74 oz)
Antenna	Inverted-F Metal Plate Antenna
Battery Life	900,000 Uses (depends on usage conditions)
Communication Distance	50 m (55 yd) (depends on usage conditions)
Available Countries	Japan / Canada / USA / China / Thailand / Vietnam / Indonesia / India
Accessories	<ul style="list-style-type: none"> <li>● Wire Harness Connector with Micro Limit Switch (TW810T-HCL)</li> <li>● Coin Battery (CR2032)</li> </ul> <p>Note: the wire harness connector with micro limit switch for TW-800T cannot be used.</p>

#### We have a lineup of various Pokayoke transmitters.

#### We have a lineup of Pokayoke receivers with various interfaces.
